

## AS-21UA

The AS-21UA is a KVM Desktop Switch (USB) which controls two servers via a single console and allows users to switch between the units via the buttons on the front panel or the hotkey configuration on the keyboard. It is the simplest and most convenient solution for multi-computer management.

Another advantage, next to the small, enclosure design, is the compact, sturdy metal housing, which is its most important feature. Because of the durable housing the total operating time is much longer than the TOT of comparable units built with synthetic material.

### FEATURES

- \* one USB console controls 2 computers/ servers
- \* keyboard and mouse simulation function built-in
- \* easy installation, no software required
- \* OS Compatibility: DOS, Windows series, Linux, Unix, etc.
- \* connection with computer via cable, AutoScan function to monitor computer operation
- \* superior video quality, max. 2048 x 1536
- \* computer selection via front panel push buttons and hot keys
- \* hot pluggable to add or remove computers without powering down
- \* compact, sturdy, durable metal housing

**\*\* The corresponding cables (2x KD-KAB-102-4) are included with delivery. \*\***

## Specifications

Type	AS-21UA	
Computer connections	Connect directly	2
Port selection		Front panel switches/ hot key
LED`s	selected	2
	online	2
	power	1
Console ports	monitor	1x HD15 female
	keyboard	1x USB female
	mouse	1x USB female
	audio	1x audio output
	microphone	1x microphone output
PC ports	2x HD15 female	
	2x audio input	
	2x microphone input	
simulation	USB	
Power	5V over USB or optional over 5V adapter*	
Video resolution	max. 2048 x 1536	
Scan interval	5sec	
Operating temp.	-10 - 50	
Storage temp.	-20 - 60	
Housing	metal	
Color	black	
Weight	0.57 Kg	
Dimension (L x W x H)	132 x 92 x 43mm	

\* **Attention:** The AC230V / 5V adapter is optional and not included in the delivery!
