AS-41DA

The AS-41DA is a KVM Desktop Switch (DVI) which controls four servers via a single console and allows users to switch between the units via the buttons on the front panel or the hotkey configuration on the keyboard. It is the simplest and most convenient solution for multi-computer management.
Another advantage, next to the small, enclosure design, is the compact, sturdy metal housing, which is its most important feature. Because of the durable housing the total operating time is much longer then the TOT of comparable units built with synthetic material.

FEATURES
* one USB console controls 4 computers/ servers
* keyboard and mouse simulation function built-in
* easy installation, no software required
* OS Compatibility: DOS, Windows series, Linux, Unix, etc.
* connection with computer via cable, AutoScan function to monitor computer operation
* superior video quality, max. 2560 x 1600
* computer selection via front panel push buttons and hot keys
* hot pluggable to add or remove computers without powering down
* compact, sturdy, durable metal housing

** The corresponding cables (4x KD-KAB-102DVI) are **included** with delivery. ******

** The AC230V/9V adapter is optional and not included in delivery. **

Specifications

Type		AS-41DA
Computer connections	Connect directly	4
Port selection		Front panel switches/ hot key
LED`s	selected	4
	online	4
	power	1
Console ports	keyboard / Mouse	2x USB female
	video	1x DVI-D Single Link
	audio	1x audio output
		1x microphone output
PC ports	keyboard / Mouse	4x USB female
	video	4x DVI-D Single Link
	audio	4x audio input
		4x microphone input
simulation		USB
Power		5V over USB **or** optional over 9V/0,5A adapter*
Video resolution		max. 2560 x 1600
Scan interval		5sec
Operating temp.		0° - 40
Storage temp.		-20° - 60°
Humidity		0 - 80 %
Housing		metal
Color		black
Weight		0.95 Kg
Dimension (L*W*H)		202 x 110 x 43mm

* **Attention:** The AC230V / 9V adapter is optional and **not** included in the delivery!
