

LS-21JA

The LS-21JA is a KVM Desktop Switch (USB) which controls two servers via a single console and allows users to switch between the units via the buttons on the front panel or the hotkey configuration on the keyboard. It is the simplest and most convenient solution for multi-computer management.

The “caseless design” (as mini KVM) and the profitable price-performance ratio are the two important arguments for this kind of switch solution.

FEATURES

- * one USB console controls 2 computers/ servers
- * keyboard and mouse simulation function built-in
- * easy installation, no software required
- * OS Compatibility: DOS, Windows series, Linux, Unix, etc.
- * connection with computer via cable, AutoScan function to monitor computer operation
- * superior video quality, 1280 x 1024, (max. 2048 x 1536 DDC2B simulated)
- * computer selection via front panel push buttons and hot keys
- * hot pluggable to add or remove computers without powering down
- * profitable price-performance ratio
- * “caseless mini KVM design” for easy installation

Specifications

Type		LS-21JA
Computer connections	Connect directly	2
Port selection		Hot key (2x Ctrl) / AutoScan
Input	keyboard/monitor	2x USB Type A
	audio	2x 3.5mm audio plug (stereo)
	video	2x HD15 (blue)
Output	keyboard/monitor	2x USB Type A
	audio	3.5mm audio plug (stereo)
	video	1x HD15 (blue)
Video resolution		1280 x 1024 (max. 2048 x 1536 DDC2B simulated)
Scan interval		3sec
Operating temp.		-10 - 50
Storage temp.		-20 - 60
Housing		plastic, mini KVM
Color		black
Weight		0.7kg / 0.8kg (incl. packaging)
Dimension (L x W x H)		88mm x 75mm x 26mm
