

Dongle-PS2-V3

The Dongle-PS2-V3 is a VGA to Cat.5 adapter for Combo KVM-switches. It consists of one VGA connector, one Cat.5 port on the other side and two 2 PS/2 connectors for keyboard and mouse.

Please note necessarily:

The system dongles are **not** included in an order and delivery of devices from our AW-series or KORAT product line. Because of the specific configuration of the HDB15-connector, the cables are **necessarily** meant for use with a device of this two specific product lines. Otherwise it could come to technical failure.
